***EXAMINER'S COMMENT/REASONS FOR ALLOWANCE***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 8/23/10 has been entered. Claims 1-16, 18-22 are now pending in the application.
2. The IDS dated 8/23/10 has been duly considered and initialed by the examiner. The cited references do not affect the patentability of pending claims.

***Reasons For Allowance***

3. Claims 1-16, 18-22 are allowed.
4. The following is an Examiner's Statement of Reasons for Allowance:  
The instant claims are allowable over prior art of record to Brehm et al. and Smith et al.

Brehm et al. disclose water absorbing polymers having interstitial compounds such as cyclodextrin or derivatives thereof, Incorporated ionically, covalently and/or as a result of mechanical inclusion. The prior art further suggests covalent linkage of the cyclodextrins to the polymer skeleton, in the form of ether, amide or ester groups subsequent to polymerization (0039). Smith et al. reference teaches superabsorbent

polymer with high permeability wherein the polymers may include 0 to 30% by wt. of water soluble polymers such as starch or starch derivatives and polyvinyl alcohol that can serve as graft base for the monomers to be polymerized (0037). Thus, the prior art of record fails to teach or suggest a particulate water-absorbent resin composition obtained by polymerizing an acid group-containing unsaturated monomer and surface crosslinking the resulting resin which composition contains tetra- or more functional polyol at least on surfaces as presently claimed.

Therefore, the instantly claimed invention is deemed allowable over closest prior art of record as per said art neither anticipating nor rendering obvious, alone or in combination, the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.
